## Adding two numbers

Your task is to read two numbers $a$ and $b(0<a, b<2100000000)$ and to output their sum.

## Input

Input contains two lines, on the first line the number $a$ and on the second line the number $b$.

## Output

Output the sum of the two numbers.

## Example

Input:
20
30
Output:
50
