

Sharmeen And C Programming

Sharmeen is a little girl who started learning “C Programming” now-a-days. She is about to write her first C program and wants to print “C Programming” without quotes in C programming language, but as she is new in programming she could not cope with printing it.

Can you do it for her?

Input

There is no input for this problem.

Output

Just print “C Programming” without quotes.

See the sample input output for better understanding.

Example

Input:

There is no input for this problem.

Output:

C Programming
