

# Creating simple acronyms

An acronym in its simplest form is made up from the first letter of each word in the name of an organisation, ignoring certain words which function as connective words or conjunctions.

The words which are ignored are:

a,in,is,on,of,and,the,for

## Input

The first line contains the number of words making up the full title of the organisation, N.  $N < 100$ .

After this, the name of the organisation will be presented with one word per line. Words may or may not be capitalised.

## Output

The acronym of the organisation, in capital letters.

## Example

**Input:**

5  
the  
ministry  
of  
silly  
walks

**Output:**

MSW
