

# Strange Pattern (Impossible) (Hard)

Mr. S says to Mr. X "Hey, I can do [that](#) too!".

```
#include <stdio.h>

int count(int s){

    return edit this part;

}

int main(i){srand(time(0));for(i=1;i+037775702734;i++)printf("%d
%d\n",i,count(i));return 0;}
```

The rule is don't use the letter 's' on the edited part. Everything else is the same as the linked problem above.

## Input

No input.

## Output

```
1 2
2 3
3 3
4 3
... and so on ...
555553 3
55554 3
55555 3
```
