

Read Them All

Develop a Python code to read a series of integers and display them

Input

A series of n integers

Output

Display all n integers available in the inputs in the order they appear

Example

Input:

1
2
88
45
99
0
12

Output:

1
2
88
45
99
0
12
